

Postgraduate Study Paediatric Nursing

ABOUT THE COURSE

The Masters in Advanced Clinical Nursing (Paediatrics) is undertaken in partnership with Bendigo Health and Monash University. This course is designed to equip paediatric nurses with knowledge and advanced skills to provide evidence-based care of infants, children, young people, and their families, in a paediatric setting. The course is structured to enable students to enhance their theoretical knowledge base, clinical skills and attributes specific to evidence based paediatric patient care.

KEY POINTS

- Commencing in February, 12 month duration
- Tutorials are delivered in a multimodal format in collaboration with Monash University
- A virtual attendance at study days is an option, however, it is recommended that students attend the simulation study days – held once per semester – in person
- Employed at a minimum of 0.6 EFT as a registered nurse at Bendigo Health for the duration of the course.
- Postgraduate students will work as part of the nursing team in Children's Ward at Bendigo Health
- Clinical Hurdles will complement the theoretical knowledge and skills acquisition

OUR FACILITIES

The Children's Ward features 16 modern, well-equipped single and shared bed spaces. Our dedicated staff provide family- and patient-centred care for infants, children, and young people from Bendigo and the broader Loddon Mallee region. The unit offers a diverse range of multidisciplinary services for in-patients, emergency presentations, and community-based care.

APPLICATION

Please submit Formal expression of interest can be made directly to Naomi Roberts NLROBERTS@bendigohealth.org.au

Applicants will be contacted after closing for an interview and further information regarding their university application

Applications close: Sunday 7th September
